Product highlights

Built for commercial use
Philips Connectivity Panel is a commercial product, built with high-quality materials for intensive daily use by hotel guests.

USB charging
USB 5V power socket allows guests to charge their personal devices.

Indicator lights
Indicator lights provide easy to understand feedback to guests, by showing which input is active.

Interactive entertainment
Game consoles can be connected to the TV through composite audio/video or HDMI connectors.

iPod & MP3 audio listening
Guests can listen to music from the source of their choice (iPod, other MP3 Player, or audio output from their PC) through plug & play connection with 3.5mm audio jack

Multiple mounting options
Philips Convenience Panel can be mounted in various ways, e.g. in the wall, on the desk or as a furniture build-in. An optional desktop kit is required to mount the panel to a desk.

Select input press on button
Press on button for easy input selection.

Stand alone configurations
Seamless integration with Philips TVs in stand-alone configuration is supported, see compatibility list.

Viewing of video media
Viewing of video media from PC, camcorder, DVD player and various other devices is supported through VGA, composite audio/video, S-Video and HDMI connectors
